

Energy Efficient Automatic Home Generator Systems

new for
2011!

You Really Can Have It All

Designed to meet the rigorous demands of high-square-footage, high-tech homes, the 30kW and new increased power rating 48kW Home Generator Systems by GE ensure that, when the power goes out, all of life's luxuries – little and big – remain at your fingertips.

imagination at work

A Smarter Backup Power Solution

The patented Symphony™ II power controls offer a whole house solution for virtually every size home.

Most high wattage creature comforts normally require a large and expensive generator to meet with the demands of a larger home. Now you can manage the high demand appliances of even the most power hungry home with this affordable upgrade.

Providing Peace of Mind

Automatic

The Symphony™ II Power Management System continuously monitors your home's connection to utility power. The generator starts automatically when there is an outage and shuts down automatically when utility power is restored.

Reliable

GE is a name you know and trust. You can be confident that, when you need your Home Generator System, it will perform. GM Vortec™ industrial engines will deliver years of reliable performance.

Warranty

The five-year limited warranty is the best comprehensive parts and labor warranty in the industry.

Designed Around Your Life

Word class performance

4 and 8 cylinder GM Vortec engines at 1800RPM provide sophisticated yet extremely durable industrial grade power - perfect for the high power demands of larger homes.

Durable and Weather-resistant

The new military-grade finish ensures years of all-season outdoor protection and resistance to corrosion, chipping and abrasions eliminating the need for an aluminum enclosure.

Electronics-friendly

The system delivers clean, stable power, protecting your computers and other sensitive electronic equipment from damage.

Easy Monitoring

The included remote monitoring system allows you to check system status without leaving the house.

	076034	076035
Fuel type	Propane (LP) Natural Gas (NG)	Propane (LP) Natural Gas (NG)
GE power management	Whole House Symphony™ Automatic Transfer Switch	
Watts LP/NG	30,000 (LP or NG)	48,000 (LP or NG)
Engine	GM Vortec 3.0L I4	GM Vortec 5.0L V8
Operating RPM	1800	
Operation	Fully Automatic	
Electronic governing	Yes	
Full pressure lubrication	Yes	
Voltage	120/240V AC, Single Phase, Electronic Regulation	
Amps (240V)	125 (LP) 125 (NG)	200 (LP) 200 (NG)
Alternator	Brushless	
Voltage Regulation	Automatic	
Fuel consumption* (at ½ Load)	131 ft³/hr, 3.64 gal/hr (LP)	203 ft³/hr (NG) 231 ft³/hr, 6.42 gal/hr (LP) 334 ft³/hr (NG)
Hour meter	Yes	
Remote system status alerts	Low Oil Shutdown, Fail to Start, Low Frequency, Engine Overspeed, Low Voltage, Low Battery Voltage, Oil Temp High and Transfer Switch Fault	
Overcrank protection	Yes	
Dimensions (LxWxH)	84.5" x 39.5" x 41.5"	98.5" x 39.5" x 44"
Weight (generator only)	1800 lbs.	2100 lbs.
Warranty	5 Year Limited	
Included extras	Each system includes an integrated system status panel, hour meter, battery charger, engine block heater, radiator fluid and oil	

*Fuel consumption rates are estimated based on normal operating conditions at ½ load. Generator operation may be greatly affected by elevation and the cycling operation of multiple electrical appliances - fuel flow rates may vary depending on these factors.

This generator is rated in accordance with UL (Underwriters Laboratories) 2200 (stationary engine generator assemblies) and CSA (Canadian Standards Association) standard C22.2 No. 100-04 (motors and generators)
